

## INFO

September 2007

EUROFLEX GmbH was founded by NDC, Fremont, USA and G. RAU GmbH & Co. KG, Pforzheim, Germany in 1993.

Now, in September 2007 G. RAU has taken over the shares of NDC. As a result EUROFLEX GmbH has become a 100 % subsidiary of the family owned company G.RAU GmbH & Co. KG, where our high precision semi-finished products are manufactured. The company's 66,6% ownership of ADMEDES Schuessler GmbH is not affected by this.

Simultaneously, Prof. Dr. Dieter Stöckel has resigned as president and retired from the company.

Prof. Dr. Stöckel has asked us to extend his appreciation for your trust and the successful cooperation to you.

At the same time we would like to thank Prof. Dr. Stöckel for his very successful engagement for our company from the foundation of EUROFLEX GmbH to this day.

We are looking forward to a continued interesting and successful cooperation with you.
